

Final Term Paper

FSC2101

Submission Date: 8 November 2021 (Mon)

Submission Time: 2359hrs

LumiNUS softcopy submission

Question A

Your best friend is a die-hard CSI fan, and he knows that you are taking the forensic module FSC2101. He is very disappointed in not getting the chance to do the module. He wants to know about the latest development in forensic science. Describe to him recent innovations in forensics in the world.

Question B

DNA evidence is described as the “silver bullet” in crime scene investigation. In the context of DNA evidence, discuss recent slip-ups that had an impact on the outcome of the criminal case(s). You may also consider non-local case(s).

Question C

Describe three different biological samples that can be found at a crime scene, and how they are collected and processed. Highlight one local or foreign case where all three biological samples described by you were used as evidence in court.

Submission guidelines

- This paper account for **30%** of your final grade.
- Name your submission file as “xxx(your matriculation number)_question(A, B or C)”.
- Provide your matriculation number and name on the paper as well. We will not be able to identify the student without the information.
- There is no word limit.
- There is a two-page limit for your main body. You can include references on the third page.
- Main body exceeding two pages will be disregarded.
- Any paper with words less than font 12 will be penalised.

Submission guidelines

- Your submission is subject to Turnitin check and you will must achieve a similarity index not exceeding 25% (green score).
- A similarity index above 25% may be subject to disciplinary action and an immediate fail grade for the whole module.
- You are allowed to re-submit your paper to achieve a green score.
- Upload your paper to the “Final-Term Paper_QuestionX(A, B or C)” folders which will close on 8 Nov 2021 @ 2359hrs.
- Late submission: 9 Nov 2021 @2359 hrs (late penalty imposed). No submission will be accepted after this. Late submission to be emailed to Prof Eugene @ eugene_lee@agc.gov.sg
