

Mid Term Paper

FSC2101

Submission Date: 27 Sep 2021 (Mon)

Submission Time: 2359hrs

LumiNUS softcopy submission

Scenario

- You are a crime scene investigator, and you are activated to attend to a crime scene at Clarke Quay.
- At the crime scene, chairs and tables were overturned, and some droplets of blood were found. A knife and a metal rod were also seized.
- Information from the investigating officer established that the case involved a fight among rival gang members over a staring incident.
- No one has been arrested yet as eye-witnesses said that they could not identify the persons involved in the fight.
- The investigating officer asked you for leads to identify the suspects.

Question

What forensic evidence can you obtain from the crime scene to assist in identifying the suspects involved in the fight? Briefly describe how and why the forensic evidence is useful for identification.

Submission guidelines

- This paper account for **15%** of your final grade.
- Name your submission file as “xxx(your matriculation number)_midtermpaper”.
- There is no word limit, but your submission should not exceed **one** page.
